Memo No. HPH/9M-21/2020/part II/ 111

Dated: 28.04.2021

CIRCULAR

It is being observed that the need of emergency admissions are arising in Covid suspect patients awaiting a report/with a negative test report for Covid-19.

This is to reiterate that under such circumstances, all treating hospitals will admit such patients in dedicated SARI beds for necessary management. RAT should be done for detection of Covid infection status. No patient can be referred without stabilizing and arranging bed in the hospital referred to.

This is very urgent and due care of such patients must be ensured. Any deviation will be viewed seriously.
